

2023 Stahlman Beekeeping E-mail Notes Issue #34a

Sorry for the delay sending this copy. I have had some weather and computer issues to deal with. I was having trouble with my internet connection and my computer was giving me problems as well. I solved that by buying a new computer and "my Geek Squad skills" have improved somewhat.

This issue deals with weak hives. This is an issue that some of you may be experiencing. Fall management will be coming up next week.

Dana
