

2023 Stahlman Beekeeping E-mail Notes Issue #9a

Swarming time here in Raleigh. Hope this week's Notes help those wanting to make splits. I is a bit longer (8) pages. It covers two methods I use to make splits.

I hope the weather in your area is not what I see on the new with snow, strong winds, rain. We have some cooler weather coming up this next week. So goes weather in March.
