

2024 Stahlman Beekeeping E-mail Notes Issue #23a

Hot, Hot, Hot weather ahead. I have a busy travel schedule both this month and next. Next week's issue will be combined with the first issue in July. I will be spending time in New York state and Vermont. I hope to be home by late June. Another interruption will take place in July. I have been invited back for a revisit to The Ohio State University bee yard and COBA's 20th reunion. OSU is demolishing agriculture buildings on the west campus including the Rothenbuhler bee lab and building a welcome center in that location. It will be a sad good-bye to many years of beekeeping history in that location. Some may not know but I was at one time in the early 1980's the manager of Ohio State's Buckeye Gardens on the west campus. Progress marches on and our past memories are all that is left. Judi and I will be spending mid-July in Ohio. Thus, I may miss an issue or so during that period as well.

Dana
