

2022 Stahlman Beekeeping E-mail Notes Issue #11a

I received several asking about the jeep in the introduction to Issue 11. They did not get the picture of the jeep but some text instead. I also got one of those reminders of pictures I took on this day in earlier days. March was always a challenge getting into bee yards. These are some pictures that shows roads into bee yards in Ohio. Sometimes even a 4-wheel drive is not going to get one into some bee yards.

I do appreciate the questions I am getting back about cold weather feeding and comments about bee yard locations. I put bees in bee yards that were in productive locations. Getting into them was a challenge in the spring. I did own a farm tractor that allowed access to these three bee yard locations. Hopefully the picture of the jeep comes thru this time.
