

## **2024 Stahlman Beekeeping E-mail Notes Issue #16a**

I am going to be brief. I went back to bee school to help student learn about bees. I learned more than they did. Think about that. I am 85 years old and I have kept bees during most of those years. The times are changing and I like to know as much as I can about my love for bees.

The entire week Monday thru Friday was spent either in a classroom or in the bee yard. Anyone who thinks they know it all -- I have news for you! Our beekeeping world is changing and changing fast.
